

Chase Christensen

Full Stack Engineer

Salt Lake City, UT | 385-244-8645 | chaserchristensen@gmail.com | chasecee.com

SUMMARY

Full stack engineer with 12+ years shipping web and mobile products, from political campaign platforms to enterprise marketing sites serving hundreds of content editors. Currently sole owner of a cross-platform messaging app for law enforcement agencies, plus the company's public site and internal CMS frontend. Deep React and TypeScript background, with working range across Swift, Kotlin, Go, and Postgres, and a track record of making things measurably faster: page loads, build pipelines, and onboarding time.

EXPERIENCE

Senior Full Stack Developer

CRIMEWATCH Technologies, Remote | October 2025 to Present

- Sole owner of Nexus, a white-label iOS and Android messaging app serving law enforcement agencies. Ship releases through App Store Connect and Google Play, build custom native UI on top of the Rocket.Chat client, and handle push notifications, background delivery, and device-level debugging.
- Rebuilt crimewatch.net with a programmatic SEO architecture, including generated landing pages and a structured XML sitemap covering agency and jurisdiction coverage.
- Own the frontend of the internal Go CMS, reskinning and modernizing the admin interface used across the platform.
- One of three engineers company-wide. Inherited and maintain a legacy Drupal platform after a departure, keeping it stable while newer systems take over.
- Tech stack: Swift, Kotlin, React Native, TypeScript, React, Astro, Go, Docker, PHP, Drupal

Senior Full Stack Developer

InMoment, Salt Lake City, UT | April 2022 to October 2025

- Built frontend utilities, page templates, and content pipelines for inmoment.com, a multilingual enterprise site with hundreds of contributing editors.
- Raised the site's PageSpeed score from 66 to 96 across two years of sustained Core Web Vitals work.
- Replaced a manual five-minute deploy process with one-click CI/CD, cutting builds to 23 seconds and removing the release bottleneck for the content team.
- Reduced local environment setup from 90 minutes to 5 minutes, shortening ramp-up time for new developers.
- Tech stack: PHP, WordPress, GraphQL, SQL, Node.js, WPEngine, Bitbucket

Frontend Developer, Contract

Strider Intel, Remote | 2022 to Present

- Ongoing contract engagement building and maintaining striderintel.com as a headless WordPress site on Faust.js and Next.js, migrating ACF-based blocks into a maintainable component architecture.
- Resolved multilingual rendering issues including Japanese typography and font loading across locales.
- Built and operate a visual regression monitoring bot that catches layout breakage across deploys before it reaches production.
- Tech stack: Next.js, Faust.js, React, TypeScript, WordPress, GraphQL

Head of WordPress Development

Doxy.me, Salt Lake City, UT | October 2020 to April 2022

- Rebuilt the company marketing site from the ground up with performance as the primary constraint, taking the PageSpeed score from 23 to 95.
- Built a custom theme on Tailwind CSS, Webpack, and modern JavaScript tooling, replacing a heavy legacy stack.
- Tech stack: WordPress, Tailwind CSS, Webpack, JavaScript, PHP

Lead Developer

Arena Online, Salt Lake City, UT | August 2014 to June 2018

- Built and shipped every client website in-house and ran all hosting infrastructure, working under the hard deadlines of active political campaigns.
- Led technical direction for the design team, translating client requirements into deliverable builds.
- Notable launches: johnkasich.com, brucerauner.com, fixillinois.com, online.arenacomm.com

Frontend Developer

IQVIA, Seattle, WA | July 2018 to March 2019

- Built high-fidelity prototypes for IQVIA health data products and integrated shared design systems into legacy applications alongside the UI/UX team.

Frontend and WordPress Developer

Edge Multimedia, Portland, OR | October 2019 to March 2020

- Redesigned the agency's main site and delivered large-scale client WordPress builds, including a financial calculator suite packaged as a reusable plugin.

Founder and Developer

Chase Cee Web, Freelance, Salt Lake City, UT | January 2012 to Present

- Design, build, and maintain full-scale websites for clients across industries, managing every project from concept through launch and ongoing hosting.
- Tech stack: React, Next.js, TypeScript, Node.js, Python, Vercel, AWS

TECHNICAL SKILLS
